EDUCATION

Name of course	Year	College	%
Btech(ECE)	2024	PES UNIVERSITY,Bengaluru	7.84
State Board (Class XII)	2020	Deeksha KMWA, Bengaluru	94%
ICSE (Class X)	2018	Sarvodaya NPS,Bengaluru	92.16%

SKILLS

Python, C programming ,Data Science, SQL,C#, HTML, CSS, JS, Angular and React

INTERNSHIPS

Internship Trainee, Bosch Global Software Technologies[Mobility Developer], Bengaluru. Jan 2024-May 2024

- Lead the integration of Software-in-the-Loop (SIL) methodology, enabling early software validation in a virtual environment before hardware integration. This approach significantly reduced reliance on costly physical prototypes, streamlined development cycles, and ensured software performance met rigorous standards.
- Automated file patching processes using Javascript and Python, enhancing build efficiency and reliability. By implementing scripts and tools, minimized errors and ensured consistent build results, showcasing adaptability and proactive problem-solving skills.

Summer Intern, Hindustan Aeronautics Limited[Jaguar Division], Bengaluru. July 2023-Aug 2023

- Comprehensive understanding of aircraft components, systems and functionalities
- Collaborated with an experienced employee to fine-tune the resistance settings of a critical rheostat within the 91 Alpha Box, a crucial component destined for aircraft integration.

PROJECTS

- Haptic Steering wheel for Safety, Navigation and Infotainment System.[Capstone Project,2022-2024]
- Sorting visualizer web application using **React.js** web framework: Developed a dynamic web application to visualize sorting algorithms, such as Merge Sort, with interactive features that demonstrate the step-by-step sorting process to enhance user understanding of algorithm mechanics.[2024]
- Simple single page web application using **Angular** web framework.[2024]
- Resume Screener and Classifier : This tools converted pdf resumes into textual data that can be easily screened, classified & summarized, making it easy for job seekers to apply and for recruiters to hire.(**LLM, FAISS, API call**) Hackathon- Synapse.[April 2024]
- Implementing a Criminal Database using **MYSQL** and GUI implementation done by **streamlit**. [November- December,2022]
- License Plate recognition : The **Machine Learning** model differentiates the numbers on the plate from other disturbances in the image and identifies the presence of 'IND'. [March 2023-March 2023]

ACADEMIC ACHIEVEMENTS AND AWARDS

- Completed Minors in Computer Science offered by PESU(Courses being Data structures and algorithms, Operating systems, Database management system and Design of Algorithms).
- Paper on Haptic Steering Wheel published in “**2024 IEEE International Conference on Advanced Systems and Emergent Technologies (IC_ASET’2024)**” .
- Obtained KCET rank of 1965.
- Obtained NICE domain specialization - VLSI Domain.
- Proud recipient of Post-Matric scholarship offered by the Government of Karnataka.
- Awarded the Distinction scholarship for five semesters.

TRAININGS

- Training in **Google IT Support Professional Certification** Course offered by Google, Coursera, courses include(Bits and Bytes of computer networking, Technical support fundamentals, Operating systems, System Administration and IT Infrastructure Services).
- Currently pursuing training in the course,100 Days of Code: **The Complete Python Pro Bootcamp** for 2024, Udemy(Online).

POSITIONS OF RESPONSIBILITY

- Participation in the Kormangala Plogging run conducted by BOSCH CSR club.(2024)
- Orchestrated various school activities and festivals as House Captain for Iris House (2017-2018), showcasing adept leadership and organizational abilities.
- Contributed to the HAYA Racing team(2021-2022) by meticulously preparing the budget for the renowned Supra event, demonstrating keen attention to detail and financial acumen.

EXTRA-CURRICULAR ACTIVITIES AND ACHIEVEMENTS

- Active participation in chess, table-tennis, basketball and football, demonstrating diverse interests, teamwork, and leadership abilities.
- Achieved **top five** position in Synapse, a state-level hackathon conducted on April 2024.
- Participated in Samagic, 24hr hackathon, topic being checking potability of water using various ML algorithms from an already provided dataset.(Aug 2022)
